ATMOSPHERE DURING THE AGM OF SOPHARMA

19.06.2015, SOFIA

By Iliana Stoycheva

Before the start of the AGM, the EWSdGE representatives were approached and kindly asked instead of raising the questions in public before the shareholders to participate in a meeting with the Chairperson and Vice Chairperson of the board of Sopharma. The justification of the request was the long AGM agenda.

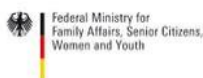

In the organized meeting with the board, it was shared that women candidates for board members are generally supported. The only female representative of the board (Vice Chairperson) expressed the opinion that to be elected because of quotas is offensive for women and can mean that women are not qualified to be appointed without quotas.
