ATMOSPHERE DURING THE AGM OF DANONE

29.04.2015, PARIS

“CE SONT LES HOMMES QUI MANIFESTENT LEUR MECONTENTEMENT”

By Sylvia Cleff Le Divellec

The issue of equality between women and men has not been well received by Danone's shareholders and its President during the Annual General Meeting of Shareholders of Danone on 29.04.2015.

We were assured by a preliminary interview with the communication services that the subject would be discussed during the AGM. The promise was kept as all the questions submitted in writing were read. However, this was excessively long and provoked the irritation of the audience, who began to whistle until the President called for silence.

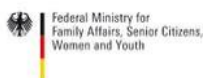

Overall, the topic has not been well received.
